Suicide is a serious public health problem that has lasting harmful effects on individuals, families, and communities. There are many factors that contribute to suicide.

The goal of suicide prevention is to reduce factors that increase risk and increase factors that promote resilience (CDC).

Join us to bring awareness to this important topic and learn what tools are available to you and your community.

TARGET AUDIENCE

Fire/EMS, Police, medical personnel, mental health professionals, social workers, public and private education entities, public, government and community organizations.
